Feedback Process of Stake Holders:

Stake Holder's feedback is a regular process of the University. University always gives importance to its stake holder's suggestions for curriculum development and other student related activities. The University generally takes the feedback from the following stake holders:

- Students
- Teachers
- Employers
- Alumni
- Peer Academicians

At our university, we collect feedback from different stakeholders including Alumni, Students, Faculty, Peer Academicians, and Employers. Using online platforms, we gather these insights efficiently for thorough analysis. The processed feedback is then forwarded to various boards for their valuable suggestions. The Departmental Board of Studies synthesizes this information, crafting a comprehensive outcome which is then presented to the Academic Council. During Academic Council meetings, chaired by the Vice Chancellor, detailed discussions and clarifications take place. This collaborative process ensures that every perspective is considered before final approval and implementation of necessary changes. This method not only upholds the academic integrity of our institution but also fosters a culture of continuous improvement and innovation.

Feedback process of the School/Department:

Curriculum Design and Development is a significant process that involves consulting with experts and developing relevant need-based inputs based on feedback from stake holders. In this regard, the University makes the requisite arrangements for students, teachers, alumni and employers to provide input on curriculum-related institutional processes. The ultimate goal of stakeholder input is to gain valuable insights for improving teaching, learning, evaluation, and ability in all areas. Curriculum, as one of the most important elements of the teaching-learning process, must be evaluated on a regular basis. Shobhit University Gangoh has total 09 Schools/Departments and feedback is taken School/Department wise.

STUDENTS' FEEDBACK

Students' Feedback Analysis

After systematically assessing and examining the students' suggestions, the university uses it as a foundation for making changes to the existing structure. The student feedback questionnaire collects quantitative and qualitative responses about the quality of in-class content, pedagogy, learning materials, perspectives on theory/practical courses, and services extended from the School/Department. Feedback is taken from approximately all the students enrolled on the School/Department.

Feedback Questions and Response of Students:

Students feedback is utmost important for revision of curriculum. A set of questionnaire has been prepared and it was presented before students for their valuable suggestions. The following Table shows the different questionnaire and responses.
