## CPR Training Mannequin

These manikins simulate blood flow to the brain using LED light feedback. These CPR manikins can help your students learn how to adjust their technique in real-time to deliver CPR correctly. This gives them the confidence and the skills to provide more effective CPR.

## Nebulizer Training Kit

A nebulizer is a small machine that turns liquid medicine into a mist that can be easily inhaled. You sit with the machine and breathe in the medicine through a connected mouthpiece or facemask.

### **Catheterization Simulator**

Trainees can learn and practice proper sequence of catheterization steps.  
[2] Use of simulation enhances visual and spatial thinking and improves hands-eye coordination
